

NICHIAS Group Environmental Policy

The NICHIAS Group create a sustainable society by reducing the various environment impact, including global warming.

1. Compliance with Laws and Regulations

As part of its actions based on the "NICHIAS Philosophy," we comply with laws and regulations and the standards we set ourselves, and fulfill corporate social responsibilities.

2. Our Actions

Environmentally Friendly Design and Development

We conduct life cycle assessments of products and services to create designs that have a minimal environmental impact.

Global warming

We focus on reducing greenhouse gas emissions throughout the value chain through energy efficiency and conservation.

Circular Economy

We maximize resource utilization by increase recycling and reduce waste.

Nature Positive

We conserve water resources and biodiversity together with local communities.

Chemical Substance Management

We take responsibility for our chemical use and emissions.

We set environmental targets based on the above statement and action for continuous improvement.

3. Cooperation with stakeholders

We communicate with stakeholders by disclosure and solve social issues together.
